# Crack the Code!

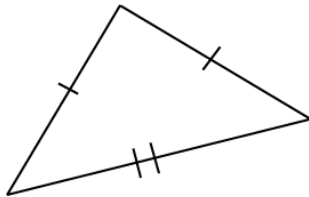

Mission Control needs you to find the code for each safe by identifying the types of triangle.

1. Fill in the blank under each shape with the corresponding type of triangle
2. Match the type of triangle to its corresponding number
3. Fill in the blanks on the safe with the numbers in the order the triangles appear

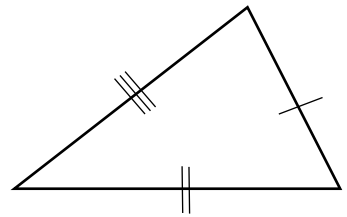

1	Isosceles Triangle
2	Scalene Triangle
3	Equilateral Triangle
4	Obtuse Triangle
5	Right Triangle
6	Acute Triangle
